Release Date	Versions
📅 22 Dec 2025	Updates for Mobile Client 2601.1.1 Updates for D365 Finance & Operations 2601.1.1

**Note to installation - Installing Dynaway Scheduling Board**

Release 2601.1 replaces "Dynaway Planning Board" with "Dynaway Scheduling Board". Installation must be done with virtual path **scheduling** specified on the Web App, the authentication must be <https://<Web App Default Domain>/scheduling/login/success> and when files are uploaded the site can then be accessed from "https://<Web App Default Domain>/scheduling"

**Note to Installation - Changed Number of Microsoft Versions Supported**

Release 2507.1 is released for product version **10.0.43**. We are switching from release for three latest versions to release for the two latest versions. This enables new features from Microsoft to be available more quickly.

**Note to Installation - Models Cleanup**

Release 2507.1 contains cleanup of models, please see details in Installation Notes section.

dynaway

1 Products Released January 2026

- Enterprise Asset Management
 - Advanced EAM
 - Analytics
 - Asset Service Management
 - Contractor Management
 - Maintenance Data Import
 - Maintenance Insights
 - Mobile Client - Scheduling Board, **NEW**
 - Mobile Client - Work Execution
 - Safe Work

Labels are in en-us only.

The deployment package has been built on:

- *Installed product version : 10.0.45*
- *Installed platform version : Update69*

The mobile applications have been tested on the following browsers, all browsers using the latest build at the time of release:

- **Desktop**
 - *Chrome version 143 on Windows 11 desktop*
 - *Edge version 143 on Windows 11 desktop*
- **Android**
 - *Chrome version 143 on Android phone (running Android 15)*
- **iPad**
- **iPhone**
 - *Safari for iOS 26.2*
 - *Edge version 143*
 - *Chrome version 143*

Known issues:

- *If using the Edge browser on iPhone or iPad, and signing in to your AD account, closing down the browser will delete all cached data for the application and the user has to synchronize all data again.*
- *On some Android phones the event telling the browser that the virtual keyboard is closed does not fire resulting in save buttons sometimes overlapping close/cancel buttons.*

Installation guide for mobile can be found here: <https://help.dynaway.com/mobile-eam/getting-started/>

2 Major Changes

2.1 Dynaway Planning Board → Dynaway Scheduling Board

The name of the application has changed to Dynaway Scheduling Board.

The interface will be a little bit different, but you are still able to do all the tasks you do today. One or two features may have a slightly different flow.

Installation notes

The scheduling board must use the virtual path "**/scheduling**" and the redirect URIs in the App Registration must be "**<Web App Domain>/scheduling/login/success**".

3 Upcoming Changes

3.1 Dynaway Mobile Client Installation

This does not happen yet but is a notice to inform you that it is coming.

The installation and update process for the Dynaway mobile clients will change.

We are striving to make it easier to manage the installation and upgrade process for the Dynaway mobile clients which will lead to updated installation guide, just one installation package no matter which mobile clients you are using, upgrading can be done with a simple script minimizing the risk of faulty input. We are also removing the need to update the web.config file of applications but rather use environment variables in the Web app - these will also be manageable through a script.

4 Summary

In this version, of particular note are:

- **Mobile Client**
 - **Work execution:**
 - **Multi-select attachments:** When adding attachments to entities from the camera roll or pc, it is now possible to select multiple attachment in one go.
 - **Better management of item dimensions:** Item dimensions properly track mandatory/optional dimensions and allowing empty values
 - **Notes:** Improvement to note inputs, especially for work order lines. Changing notes will open a dialog allowing the user to add or edit the notes without risk of interference from other updates.
 - **Scheduling board:**
 - **New version:** This is a replacement of the Planning Board application. This must be setup to use the virtual path **"/scheduling"** where Planning Board was using **"/plan"**
 - **Shared teams:** Teams can now be shared between planners in the same manner and location as saved searches are shared. The teams are saved with area **"TEAMS_PLAN"**.
 - **Team capacity overview:** The Scheduling Board shows team capacity overview per day giving the planner more information on the current status of the scheduling process.

5 Documentation

The following documents have been updated:

- **Advanced EAM**
 - [Copy maintenance sequence](#)¹
- **Mobile Apps: EAM**
 - [Mobile app set ups](#)²
 - [Cache saved search list](#)³

1. <https://help.dynaway.com/advanced-eam/maintenance-sequence/copy-maintenance-sequence/>

2. <https://help.dynaway.com/mobile-eam/getting-started/optimization-and-performance/>

3. <https://help.dynaway.com/mobile-am/getting-started/setup-mobile/#cached-saved-search-lists>

6 Installation Notes

6.1 Models Cleanup

We have cleaned up the number of models shipped. Models removed have been deleted. Please follow the Microsoft guides for deleting models:

<https://learn.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/dev-tools/models#deleting-a-model>

<https://learn.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/deployment/uninstall-deployable-package>

Here is an overview of the models removed:

Model Removed	Notes
Dynaway Lockout for EAM (DynawayLockoutEAM)	Removed, functionality not used
Dynaway Tagout for EAM (DynawayTagoutEAM)	Removed, functionality not used

7 Updates for Mobile Client 2601.1.1

Installation guide for mobile can be found here: <https://help.dynaway.com/mobile-am/getting-started/>

7.1 Module Configurations

Label	Description
Under the General node	
Landing page	This has moved from the <i>Work execution</i> node. Now contains more options. Default value: My calendar
Under the <i>Work execution</i> → <i>Work orders</i> node	
Checklist N/A allowed	Determines if the user is allowed to set N/A on checklists both individual and for the entire checklist Default value: true

7.1.1 Work Execution

Key	Client Release Notes
DMO-1 5439 ⁴	Assets/Objects - Asset/Object Tree Improved handling of long lists of functional locations and assets/objects in the tree structure. This fixes an issue where, scrolling in the tree could behave erratically and display large blank areas below the list of entities.
DMO-1 3671 ⁵	Assets/Objects - Quick Create Work Order or Request Users can now create a Work Order or a Maintenance Request, directly from the asset details page. Two actions have been added at the top of the asset details page, and rely on the existing module configurations: <ol style="list-style-type: none"> 1. For creating a work order: <i>Work Execution</i> > <i>Work Orders</i> > <i>Work Order Create</i> 2. For creating a request: <i>Work Execution</i> > <i>Maintenance Requests</i> > <i>Enabled</i>

4. <https://jira.eg.dk/browse/DMO-15439?src=confmacro>

5. <https://jira.eg.dk/browse/DMO-13671?src=confmacro>

Key	Client Release Notes
DMO-15022⁶	<p>Assets/Objects - Requests - Show All Active Requests The Requests view on the asset/object details page has been updated to show all requests available in the timeline/event history. The list displays only active requests.</p>
DMO-15428⁷	<p>General - Attachments - Preview Users can now <i>zoom and pan</i> over images while previewing an image, e.g. Asset images, Item registration images.</p>
DMO-13959⁸	<p>General - Attachments Users can now add multiple attachments at once for Work Orders/Assets/Requests.</p>
DMO-15560⁹	<p>General - Landing Page The module configuration for selecting the landing page has been revised. The configuration is now located at General > Landing page and determines the landing page of the main application. This applies across work execution modules, safe work modules, and the task module, if licensed.</p>
DMO-14416¹⁰	<p>Requests - Update Object/Asset Users can now update the object/asset on a request while the request is active, and no work order has been created from the request.</p>
DMO-14931¹¹	<p>Work Orders - Checklist Notes Fixed a text visibility issue when adding or editing a checklist note in dark mode.</p>
DMO-11704¹²	<p>Work Orders - Checklist Overview Performance Fixed an issue where opening the checklist overview on a work order with many checklist lines across multiple jobs/lines could cause the browser to become unresponsive. The page may still become unresponsive when viewing checklist lines for a single job/line that contains a very large number of checklist lines, for example more than 1000.</p>
DMO-15241¹³	<p>Work Orders - Default Line Property for Hour Forecasts When creating an hour forecast from the client, the default line property defined on the project category is applied as the line property for the new hour forecast.</p>

7. <https://jira.eg.dk/browse/DMO-15428?src=confmacro>
8. <https://jira.eg.dk/browse/DMO-13959?src=confmacro>
9. <https://jira.eg.dk/browse/DMO-15560?src=confmacro>
10. <https://jira.eg.dk/browse/DMO-14416?src=confmacro>
11. <https://jira.eg.dk/browse/DMO-14931?src=confmacro>
12. <https://jira.eg.dk/browse/DMO-11704?src=confmacro>
13. <https://jira.eg.dk/browse/DMO-15241?src=confmacro>

Key	Client Release Notes
DMO-1 5677 ¹⁴	<p>Work Orders - Items - Handle Optional Dimensions We have changed the dimension configuration from always being mandatory on all dimensions to look at the dimension setup of the item. This change will only apply in online scenarios as we do not have the dimension setup available for items while offline.</p>
DMO-1 4965 ¹⁵	<p>Work Orders - Job Notes Disappearing The note fields for work order jobs/lines, assets/objects and requests have been updated. When editing or adding a note, a dialog now opens for entering the content. For job notes, when timestamps are enabled, a timestamp is always added, and existing notes cannot be edited.</p>
DMO-1 3338 ¹⁶	<p>Work Orders - Job Notes With Timestamp When the timestamp feature is enabled for the job notes, the timestamp will now always be added. The user adds a new note by clicking the note field and then they can put in their note on which a timestamp will automatically be added.</p>
DMO-1 3308 ¹⁷	<p>Work orders - Checklists - Mark mandatory checklist as N/A Maintenance planners/managers can control which users can mark mandatory checklist items as N/A using the module configuration Work execution > Work orders > Checklist N/A allowed.</p>
DMO-1 3578 ¹⁸	<p>Work orders - Procurement - Purchase Requisitions</p> <ul style="list-style-type: none"> When creating a purchase requisition line by category, the fields vendor, unit price, and reason code are set as mandatory based on the configuration in F&O > Procurement > Setup > Policies > Purchasing policy > Procurement policy > Purchase requisition control rule, with values Required or Not required. If, for the given Vendor account, the purchase requisition control rule is set to Required in F&O, and the selected category has no vendors associated with it, a message is displayed stating No vendors available for this category.

7.1.2 Scheduling Board

Key	Client Release Notes
DMO-1 5015 ²⁰	<p>Scheduling Board - Calendar Navigation by Week</p> <p>Resolved an issue where the "Two weeks" and "Four weeks" views navigated by two and four weeks when moving back and forth in the calendar. The calendar now navigates by one week at a time in these views.</p>
DMO-1 4557 ²¹	<p>Scheduling Board - Load and Save Teams using D365</p> <p>Teams will now be saved in D365.</p> <p>They will be saved as saved searches using the area TEAM_PLAN.</p> <p>Teams can be shared between planners. Shared teams cannot be modified in the web application, consistent with other shared saved searches.</p>
DMO-1 4990 ²²	<p>Scheduling Board - Show Add Planning Note Button</p> <p>The process for adding a planning note from the preview version of the scheduling board has been updated.</p> <p>When a planner hovers over a day in the calendar, a green circle with a plus icon appears. Selecting it adds a new planning note for the resource on that day.</p>
DMO-1 2105 ²³	<p>Scheduling Board - Team Capacity Per Day View</p> <p>A new team capacity per day view has been added to the header of each team.</p> <p>The capacity view shows the number of total numbers of scheduled hours per day compared to the total available hours for each team.</p>
DMO-1 5452 ²⁴	<p>Scheduling Board - Workers Lookup for 1000+ Workers</p> <p>The workers lookup has been updated to support more than 1000 workers, ensuring that all available workers can be found regardless of scale.</p> <p>This ensures that trades and worker groups are correctly represented in the application.</p>
DMO-1 4471 ²⁵	<p>Scheduling Board – Preferences</p> <p>A new Only Scheduled view preference has been added to the Scheduling Board.</p> <p>When enabled, the board displays only resources that have schedules and/or notes, helping planners focus on relevant information when reviewing drafts.</p>

8 Updates for D365 Finance & Operations 2601.1.1

Key	Client Release Notes
DFO-104 76 ²⁷	<p>Advanced EAM - Fixed Assigning Responsible Workers and Planners When Create Request with Trade</p> <p>A bug has been fixed related to assigning the correct responsible workers and planners to a newly created request when a trade is selected in the create request dialog.</p>
DFO-107 36 ²⁸	<p>Advanced EAM - Fixed Error About Existing Purchase Requisition When Adding Non-Stocked Item to Forecast</p> <p>Resolved an issue related to a scenario in which error about existing purchase requisition has been thrown when adding non-stocked item to work order forecast. Currently this error is thrown only then when another purchase requisition exists for this item and it is related to project and activity from work order line and it has one of the status: <i>Draft</i>, <i>In review</i>, or <i>Approved</i>.</p>
DFO-105 68 ²⁹	<p>Enterprise Asset Management - EAM Objects Data Entity</p> <p>A bug has been fixed related to updating the parent object and functional location using the EAM Objects data entity.</p> <p>Now, when users update the parent object and functional location of an object using this data entity, the object is correctly moved to the parent object's functional location, and the functional location is updated for non-top-level objects.</p>
DFO-106 30 ³⁰	<p>Enterprise Asset Management - Job for Deleting Duplicated Records in Stage Log Table</p> <p>A bug has been fixed related to duplicate records that were allowed to be created in the stage log table (MROStageLog).</p> <p>Validation has now been added at the table level to prevent the creation of new duplicate records. In addition, a runnable job has been introduced to delete existing duplicates and users can find this job at:</p> <ul style="list-style-type: none"> • Enterprise asset management > Setup > Runnable jobs > Delete duplicates in stage log.
DFO-102 94 ³¹	<p>Enterprise Asset Management - New Security Role EAM Maintenance Viewer</p> <p>A new security role, EAM Maintenance viewer, has been created.</p> <p>It provides read-only permissions to the modules: Enterprise asset management, Contract management and Mobility including the read-only access for the setups for Dynaway mobile apps.</p>
DFO-105 63 ³²	<p>Mobile - Fixed Incorrect Currency On Purchase Requisition Line Created From Mobile App</p> <p>Fixed an issue where purchase requisition lines created from the mobile app were saved in D365FO using the legal entity currency instead of the currency defined for the selected vendor.</p>

Key	Client Release Notes
DFO-10713 ³³	<p>Mobile - Fixed Purchase Requisition Cannot Be Created with Blank Vendor</p> <p>A bug has been fixed related to a scenario where users could not create a purchase requisition from the mobile app with a blank vendor, even when the purchasing policy Purchase requisition control rule allowed the vendor to be optional.</p>
DFO-10506 ³⁴	<p>Mobile - Fixed Searching Items by Company Language</p> <p>A bug has been fixed related to searching items based on the language set on the legal entity in D365.</p> <p>If there are no item translations available in the language set up in the mobile application, and translations exist in the company language, the system now uses the company language for item search instead of the language set up in the mobile application.</p>
DFO-10727 ³⁵	<p>Mobile - Work Order - Work Status</p> <ul style="list-style-type: none"> Resolved an issue where cancelled and completed jobs showed work status as In Progress. Resolved an issue where lifecycle state was set to cancelled, even when other jobs were completed.
DFO-10527 ³⁶	<p>Mobile - Fixed Concurrent Pages Synchronization Does Not Send Any Changes</p> <p>Resolved an issue where concurrent pages synchronization sometimes did not send any changes to the mobile app.</p> <p>The issue was caused by the configuration key Dynaway Mobile Platform being assigned to elements involved in the synchronization process.</p>
DFO-4266 ³⁷	<p>Mobile - Fixed Incorrect On-Hand Quantities Displayed for Warehouse Management Items</p> <p>Resolved an issue where incorrect on-hand quantities were sometimes displayed for items using warehouse management processes.</p> <p>The logic has been updated to ensure correct available on-hand quantities are shown when adding item registrations or downloading offline inventory.</p>
DFO-10502 ³⁸	<p>Mobile - Removed License Warning When Opening D365FO Application</p> <ul style="list-style-type: none"> The warning shown when more mobile users are enabled than the imported license allows is no longer displayed when opening the D365FO application. This warning is still displayed on the Mobile users page, when you try to enable more mobile users than the imported license allows.
DFO-10609 ³⁹	<p>Mobile - Renamed "Planning Board" to "Scheduling Board"</p> <p>The term Planning Board has been renamed to Scheduling Board in D365FO, including on the Module configuration and License configuration pages. This change aligns with the availability of the new Scheduling Board mobile app and the deprecation of the Planning Board mobile app.</p>
